

Offsite Modular Solutions

ABOUT US

Our industry knowledge has grown steadily for over 10 years to develop a wealth of resources and solutions to manage building needs of every scale. Yet through our growth we've still been able to retain our service very personal. You'll be working with a dedicated Sana team with a combined 40 years of expertise who know your needs, understand the best way to meet them and how to do it fast and efficiently.

Our head office is in Walthamstow and our site premises are located in Rochford amongst a 3 acre space where our refurbished range is ideally located for the City of London as well as benefitting from the strong transport links expanding across the UK.

Our bespoke modular building services in the education, commercial, residential and healthcare sectors is built on devising innovative design solutions that translate into high-quality buildings completed within your budget and your time frame.

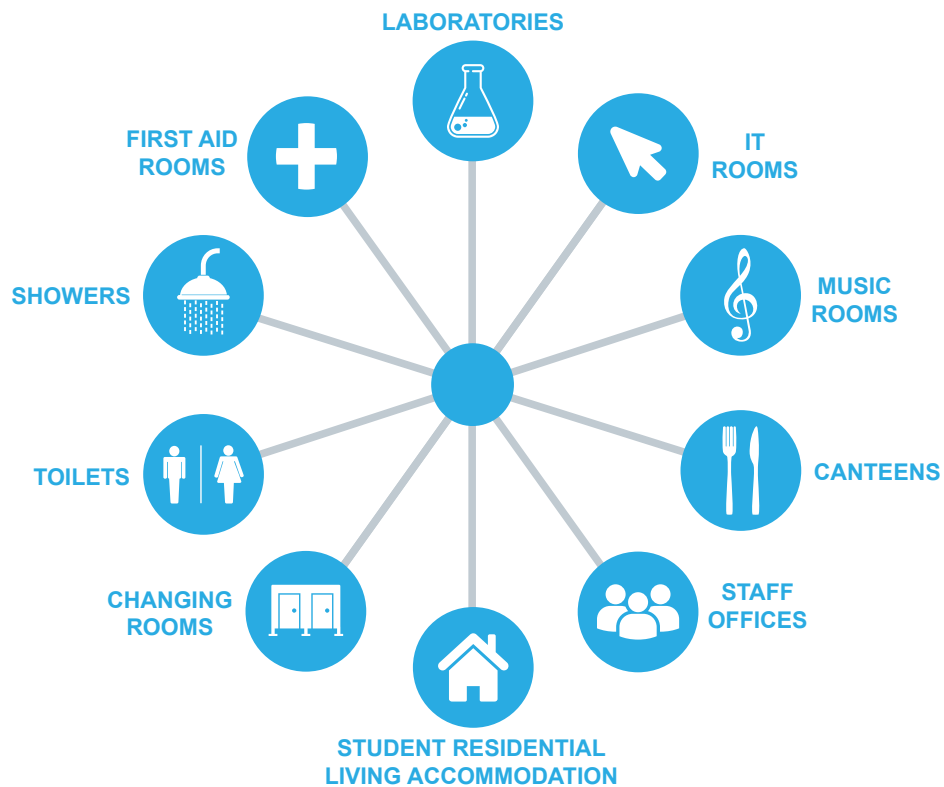

EDUCATION

We offer both temporary and permanent solutions for nurseries, schools, colleges and universities – from complete turnkey prefabricated new school buildings, to portable modular classrooms, Sana deliver bespoke, innovative designs that comply with regulations and exceed building standards for education.

Our off-site manufacture means budgets and timeframes are met as well as ensuring quick installation during school holidays.

Aside from our modular classrooms, we also provide:

SITE ACCOMMODATION

Our team at Sana have been working in construction for over 10 years and have a concise understanding of the specific needs of the construction sector.

We can deliver industry leading buildings for on-site offices, staff canteens, drying rooms and welfare buildings. We can offer a your business the right site accommodation, tailored to your exact requirements.

COMMERCIAL

Our industry knowledge gives us clear insight and can demonstrate our market leading vision for modular buildings from single standalone offices to complex multi-storey buildings.

Whether you are extending your current offices or are wanting a completely new building, we will work with you from the design stages right through to completion. Sana Modular can also provide additional security features, including alarms and door entry systems.

HEALTH AND SAFETY

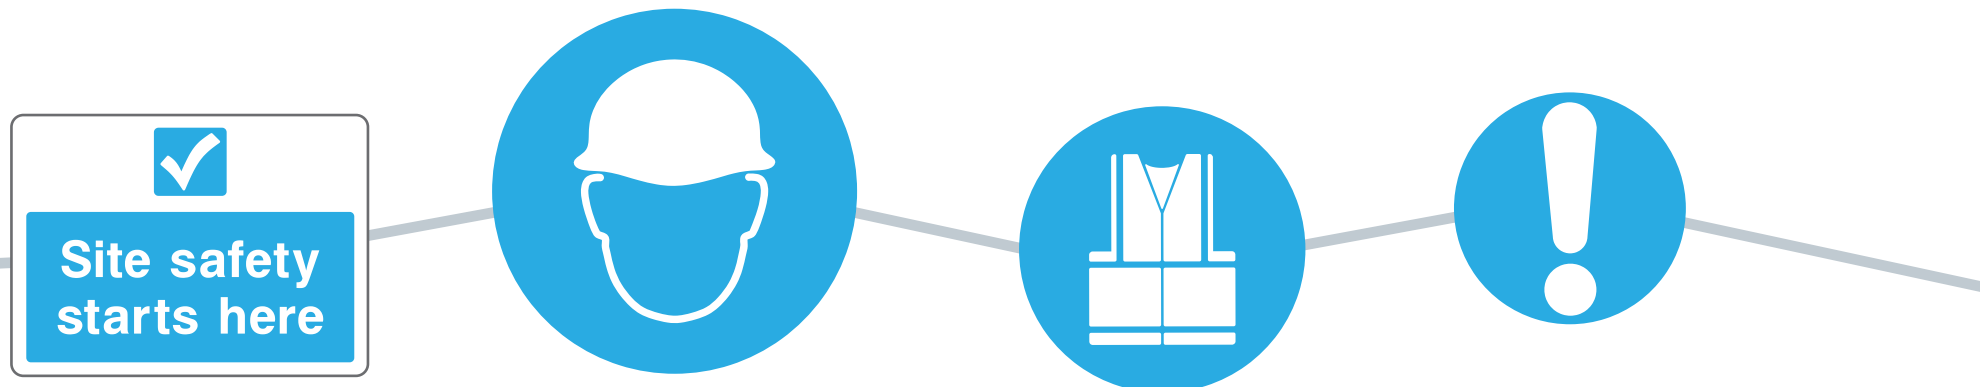

We value life and health

We want people to be able to come to work and go home safe. So we are very proud of our impeccable health and safety record, and we do everything that's needed to keep it that way. We are working towards OHSAS 18001 (occupational health & safety), and we work to these high standards in every part of our business.

Method statements and risk assessments enable us to highlight, understand and control the risks to health and safety when working. Our operatives are trained in-house through recognised NVQ (or equivalent) training schemes to help everyone work safely.

To comply with modern site requirements all operatives hold skills cards, These include:

- Construction Skills Certification Scheme (CSCS)
- Construction Plant Certification Scheme (CPCS)
- International Powered Access Federation (IPAF)
- Prefabricated Access Suppliers' & Manufacturers' Association (PASMA)
- First aid
- NVQs (National Vocational Qualifications)
